

The New Alternative for Signature Players

Nottwil/Switzerland – The renowned cymbal maker Paiste announces the launch of the **Signature «Precision»**.

The new series is created using Paiste's proprietary Signature Alloy, and features the typical hallmarks of Paiste's original Signature sound - brightness, fullness, strong presence and projection, with brilliant musicality. A particular quality of the Signature «Precision» is its clean and focused character in combination with a very articulate, straight-ahead sound.

The finish of Signature «Precision» purposely follows the tradition established by the original Signature series. Fans of the original Signature sound, look and feel will thus find these cymbals a compelling choice for their cymbal sets.

«The goal for the Signature 'Precision' was to create a more affordable Signature sound. We specifically researched and designed the manufacturing process to achieve that goal. Part of the success of this project is the incredible sound potency that already exists within the Signature Alloy», explains Erik Paiste, the cymbal maker's CEO.

The **14" Hi-Hat** features a clear, defined response, a strong open sound, and is suitable for an enormous range of musical styles and applications. With a bit more sharpness and an intense chick sound, the **14" Sound Edge Hi-Hat** offers the typical sound characteristics of Paiste's wavy bottom cymbal innovation.

The **20" Ride** distinguishes itself with a delicate, brilliant and separated stock definition over a rich, yet controllable wash, which makes it the perfect all-purpose ride. In louder settings the **22" Heavy Ride** does extra duty thanks to its penetrating ping and the powerful bell.

The precise attack of the **16", 17" and 18" Crashes** develops into an explosive, bright crash sound with rich fullness. These cymbals fulfill the demands of drummers in varied styles on stage and in the studio. The rich and warm **16" and 18" Thin Crashes** are predominantly suitable for gentle to medium applications.

The **10" Splash** and the **18" China** complete the Signature «Precision» assortment with exciting and versatile effect sounds.
