

Paiste Continues Signature Series Revival

Nottwil, Switzerland – The renowned Swiss cymbal maker Paiste announces a new phase of Signature Series re-launches and new models.

In 1989, Paiste launched the **Signature Series**, using a bronze alloy specifically created for cymbal sound. The sonic energy of “**Signature Alloy**” enabled Paiste to create cymbals with previously unknown qualities, featuring rich, full, and expressive sounds, ranging from delicate and sensitive to potent and powerful.

Collectively, over the past three decades, **Signature Cymbals** have defined the sound of numerous legendary drummers and have been passionately received by the world-wide drumming community, gathering critical acclaim in the process.

After the introduction of predominantly light models in course of the 30th Anniversary of the **Signature Series** in 2019, Paiste now relaunches classic cymbals for loud, powerful playing. Top drummers such as Danny Carey, John Dolmayan, Joey Jordison, Larry Mullen jr., Mikkey Dee, Nicko McBrain, Phil Rudd, Scott Travis, Stewart Copeland, Brad Wilk and Tico Torres made music history with these instruments.

19” & 20” Power Crash are assertive instruments for bright, full accents. **20” & 22” Power Ride** pierce the loudest guitar walls with a solid, bright ping and strong bell sound. **14” & 15” Power Hi Hi-Hat** complete the triumvirate of Signature Power models with their bright and cutting character.

The **14” Heavy Hi-Hat** features power and brilliance as well, and features clear, full sound with a rich low-end.

For the first time Paiste presents the **22” Mellow Ride** - a larger version of the popular light ride cymbal. In the new size, the sweet, mellow stick sound and the rich, soft wash obtain even more depth and volume.

Signature Cymbals are made by hand from **Signature Alloy** using traditional methods that have remained unchanged in over half a century.

Signature Power Hi-Hat 14” / Signature Power Crash 19” / Signature Power Ride 22”
